The Basic Quantum Touch 12 hour Program

We will follow the teachings of Richard Gordon from his book, Quantum Touch; The Power to Heal. Basic breathing and body awareness exercises and skills can be easily learned by everyone, within a 12 hour class. Lay people discover easy and profound hands-on healing skills that they can effectively use immediately. In principal the Quantum-Touch practitioner learns to focus and amplify the body’s own life-force energy. This is accomplished by combining various breathing and body awareness exercises. The healer holds a high vibrational field of energy around an affected area, and by a process of resonance and entrainment, the client naturally matches the higher vibrations. This allows one’s body and its own biological intelligence to do whatever healing it deems necessary on the physical, mental, emotional or spiritual level.

Class size will be limited to allow for in-depth training and skill performance excellence.

The student will finish the course with a good understanding of how the energy field works and how the energy connection between two people can initiate healing by love and intent.

Disclaimer: I understand that I will be receiving and giving healing through my hands. The hands will at times touch the client's body. I am aware that there will be no improprieties on my part as the healer. I will respect my client's wishes and if they should become uncomfortable I will remove my hands and work from a distance.

I also realize that I am not in charge of outcomes. I will surrender my own egotistical desires by holding the client in unconditional love and I will allow the innate healing intelligence of the client's body to deliver the healing to the areas of greatest good. My participation is to learn the healing skills associated with Quantum Touch and to work from the loving heart.
